

## Collection **PRISMA**

Collection of drawer units which can be composed in height and width with top in one single piece till cm 270 or till cm 240 for the aluminium finishing.

The collection is characterized by an aluminium handle but above all from the 45° cutting on the drawers' fronts and sides which gives the idea of elegance and simplicity.

The basement is always in aluminium finishing while the top can be in the same finishing of the drawers or in aluminium finishing as well. The drawer units can be fitted with castors.

design Pietro Arosio
