

Collection **RUBIK**

It is a bookcase made up of cubes with inclined faces which once put one over the other give the impression of being in a precarious balance while they are very stable indeed. On the square basement in aluminum finish you can place up till maximum seven cubes and since they turn you can find your perfect combination, like with the famous game.

design: Carlo Cumini

Finish:

Cubes: embossed lacquered in our selected colours or in our metal finishes (bronze, bronze-gold, silver, graphite)
Basement: aluminum finish

Dimensions:
